26	143	153	158

Measuring Guidelines

To achieve a more accurate measurement you should be wearing clothing that is body fitted with minimal bulk.
A measure tape is required.

CHEST (1): Measure just under the arms at the fullest part of the chest.

WAIST (2): Measure around the natural waistline.

How to read the size chart

Once you have your measurements, refer to the chart that matches which garment you require.

eg. If you measure 90cm and are after a Joey, Cub or Scout Polo.
If you choose the size closest to your size in column(a) then the garment will be loose fitting
If you choose the size closest to your size in column(b) the garment will be close fitting.
eg. For a 90cm chest a size12 will be firm or a size 14 will be loose with room to grow.
